BRACCHI
TRANSPORT & LOGISTICS

ABOUT US

Our offer ranges from exceptional transports to fashion logistics, from e-commerce distribution to industrial supply chains.

Bracchi is among **Europe's leading transport and logistics operators** with unique expertise in the industry, boasting a solid and historic positioning in highly specialised niche segments.

We guarantee an integrated and tailor-made offer covering the **entire logistics value chain**. We offer highly differentiated value-added services, thanks to an experienced and growing team with strong motivation and experience in the field.

Innovation, safety, quality and sustainability are the cardinal points of the group.

OUR VALUES

INNOVATION

We look to the future to offer our customers state-of-the-art solutions. Thanks to continuous investment in growth and market analysis, we are able to anticipate and meet the needs of our customers.

ETHICS

The issues of safety, gender equality, contractual ethics and environmental sustainability are central to Bracchi. An independent Supervisory Board oversees corporate governance.

PASSION

Our success is based on people: a highly qualified team of professionals who work every day with passion and strong team spirit. Daily activities are guided by dedication, enthusiasm, collaboration and proactivity.

OUR MISSION

Our aim is to ensure a **comprehensive offer of transport and logistics solutions**. Customer requirements are at the centre of our commitment, with a view to constant improvement.

Every day we put our passion at stake in order to **guarantee a personalized service**, with a flexible, listening and result-oriented offer.

Every milestone represents a new starting point for us. We grow for our customers and with our customers, in **constant progress in terms of training, technology and efficiency**.

OUR STRENGTHS

- Premium, diversified clients portfolio with unique **long-standing relationships**.
- Key position in **Italy and other European countries**.
- **Loyal client base** that demonstrates the quality of transport and logistics services provided over time.
- Ability to **quickly replicate and customise service** models according to the needs of new customers.
- Specialisation in niche segments that require **strong expertise and agility**.
- Possibility of **geographic cross-selling** with customers operating in different countries.

SECTORS IN WHICH WE SPECIALISE

INDUSTRIAL

Innovative solutions for logistics and transport dedicated to specific industrial sectors.

AGRICULTURAL

Tailor-made solutions for the storage and distribution of agricultural vehicles.

ELEVATOR

Innovative solutions for logistics and transport dedicated to the elevator sector.

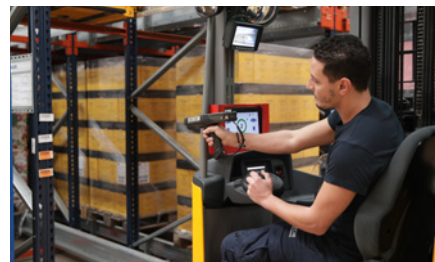

COSMETICS

We are a trusted partner for companies in the cosmetics, beauty and healthcare sectors.

FASHION

Innovative logistics and transport solutions dedicated to the fashion, footwear and clothing sectors.

FOOD & BEVERAGE

We provide our experience to meet all logistics and transport needs for the Food & Beverage sector.

E-COMMERCE

Rely on an experienced partner to handle your e-commerce orders efficiently and on time.

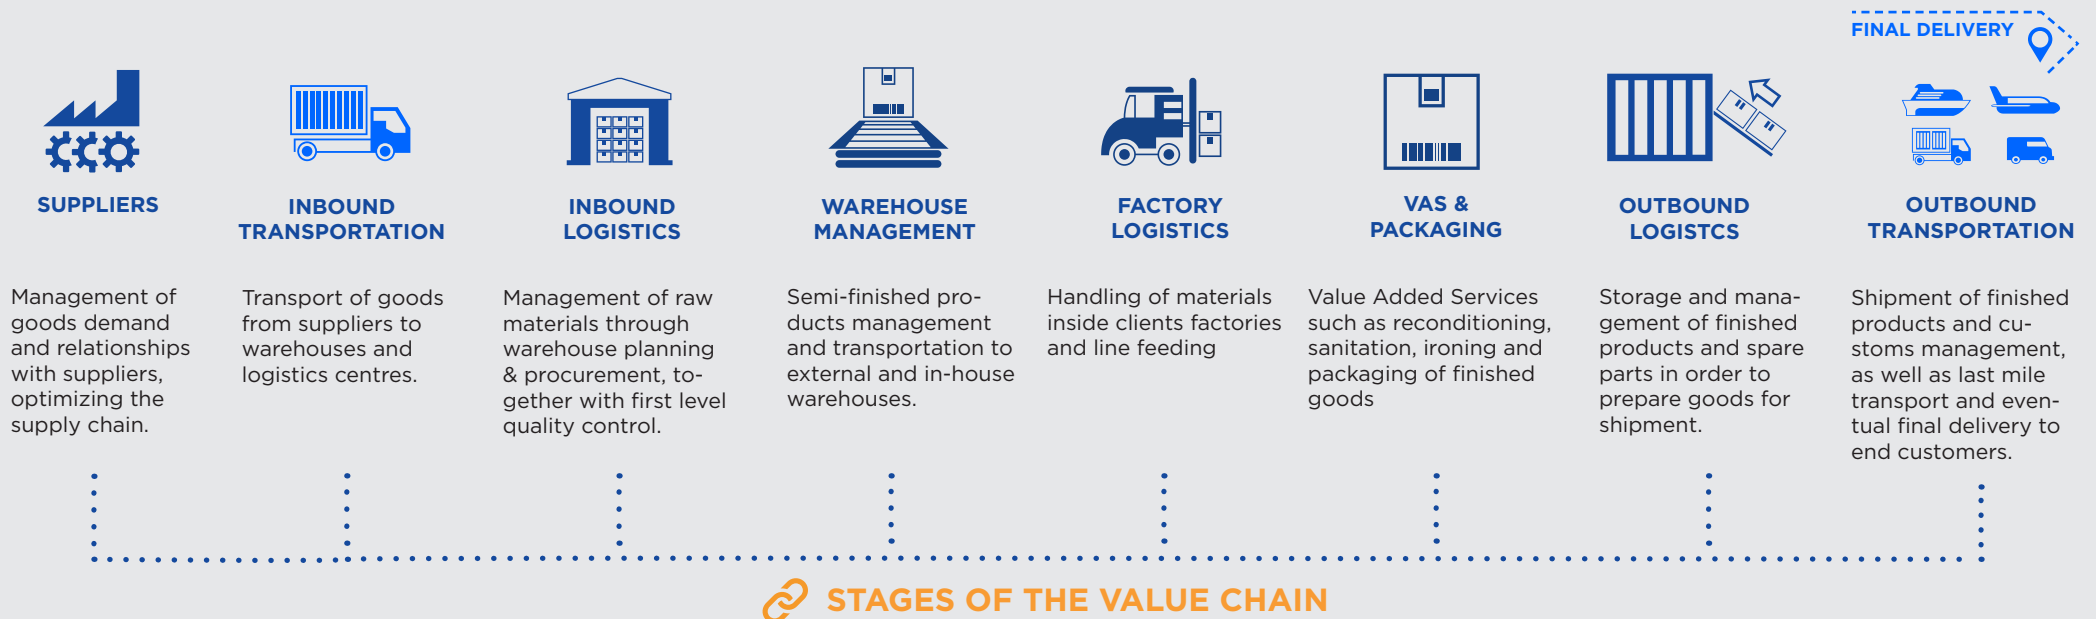

RETAIL

We provide our expertise to meet all logistics and transport needs for the world of retail and wholesale trade.

- LOGISTICS CONSULTANCY
- SUPPLY CHAIN OPTIMIZATION
- TECHNICAL KNOW-HOW
- CONTINUOUS TRAINING

OUR HISTORY. A LONG JOURNEY.

1928

The beginning of
our journey

Bracchi S.r.l. was founded in 1928 as a local transport company with a clear objective: to offer transport services with high added value.

Towards new
horizons

1980

In the 1980s, the company broadened its horizons, expanding its business abroad, particularly in Central and Eastern European countries.

1990

Integrated
Logistics

In 1994 the new headquarters was established, a large logistics hub in Fara Gera d'Adda (BG). The company expanded its network with integrated logistics services and a new department dedicated to international air and sea transport.

The company grows
and expands in Europe

2000

In 1997 Bracchi's first foreign branch was opened in Lublin, Poland. In 2010, the Slovak office in Levice opens. In 2015 the German branch of Bracchi is inaugurated in Ettenheim. In 2019, a new hi-tech logistics center is born in Slovakia, a 65,000 sq.m. warehouse in Kostolné Kračany.

TODAY

A new stage
of development

In 2016 IGI SGR, an Italian Private Equity fund, invests with a group of managers in Bracchi and opens a new phase of development. In 2018, with the acquisition of BAS Group (VI), the company expands the range of services to new businesses such as fashion, e-commerce, food and beverage. In 2020 Bracchi acquires Trasporti Peterlini, a company from Sorbolo (PR) specialized in transport up to 100 tons. A new state-of-the-art logistics hub is inaugurated in Castrezzato (BS) in 2022.

INDEPENDENT
SUPERVISORY
BODY

To meet the challenges associated with the progressive growth of the company, **a corporate governance has been implemented at Bracchi, guaranteed by an organisation, management and control model**, which monitors compliance with contractual ethics, safety and environmental policies.

The "model" was prepared on the prescriptions of the decree and the guidelines drawn up by Confindustria (Confederation of Italian Industry) to make Bracchi employees and collaborators aware of the need to follow correct and straightforward behaviour.

OUR COMMITMENT TO GENDER EQUALITY

Bracchi strongly believes in an **increasingly gender-equal future**.

Recruitment of female staff is growing steadily, in all sectors and levels of corporate life.

This testifies to **Bracchi's commitment to reducing the gender gap**, aiming for a horizon in which women will play an increasingly prominent role, including in the transport and logistics sector.

TECHNOLOGY

ADVANCED LOGISTICS TECHNOLOGIES

We choose only the most updated information systems to support our operational processes. This allows us **full interface with the customer's system**, which has the possibility to track stored goods, know expiry dates and generate automatic reports.

Our solutions include:

- Barcode
- EDP System
- RF systems
- B2B Interfaces
- Traceability Handling Units
- WMS Systems
- CRM software
- Cloud Computing Infrastructure

CONSTANT TRACEABILITY OF SHIPMENTS

Track & Tracing allows you to follow shipments step by step, right up to delivery. This online service is supported by a customer service team dedicated to providing all the necessary information.

TRANSPORTS SAFETY

We offer state-of-the-art services and products for the security of the goods transported:

- Constant monitoring of vehicles
- 24-hour Operations Centre
- Active security on vehicles from level 1 to 5
- Geo Fencing
- Anti-jammers, unmarked packages, etc.

ENVIRONMENT

ESG POLICIES AND SUSTAINABILITY AT THE HEART OF OUR PROJECT

Bracchi is constantly looking for innovative solutions to **efficient and environmentally friendly logistics**, thanks also to an always more marked digitalisation and optimisation of industrial processes.

We are committed to promoting the use of rail and sea transport. Our own road transport fleet is efficient and modern, thanks to **constant renewal and the purchase of Euro 6 energy class vehicles**. We use software and technologies that optimise the entire supply chain.

We also have **initiatives to rationalise packaging and reduce the environmental impact of warehouses**. Waste recovery initiatives, i.e. the recovery of packaging materials, are also very important.

SAFETY & CERTIFICATIONS

A SOLID SAFETY MANAGEMENT SYSTEM | SMS

Our commitment is to ensure a safe working environment for our employees, customers and visitors by **promoting a robust safety management system | SMS**, founded on risk control and accident prevention.

For Bracchi, the commitment to achieve its social goals is fundamental. The **safety, health and well-being** of its workers are inseparable elements of the corporate aims that the company pursues daily.

Our strengths?

EXPERIENCE ➤ CONTINUOUS TRAINING ➤ CONSTANTLY PURSUING NEW GOALS ➤ CONTINUOUS INVESTMENTS

OUR CERTIFICATIONS

Bracchi has long adopted the values of quality, health, safety and environment (QHSE Quality, Health, Safety, and Environment). Our first UNI EN ISO 9001 Certification dates 1996.

ISO 45001

ISO 9001

Safety for Bracchi is an issue of primary importance. This is why we have obtained **ISO 45001:2018** certification, the first international standard for health and safety at work.

ISO 9001:2015 certification demonstrates our Organisation's commitment to the quality of business processes in every phase of our work.

IATA

ISO 14001

Bracchi is a **IATA (International Air Transport Association) certified agent**. That's why we guarantee air transport to and from all continents, also dealing with the shipment of dangerous goods.

ISO 14001:2015 certification confirms Bracchi's commitment to continuous improvement of environmental performance and reduction of emissions.
